

Sharing our faith in Christ with other people doesn't have to be intimidating- -for us or for our friends with whom we share. Over one million people have experienced the groundbreaking faith-sharing training course, *Becoming a Contagious Christian*. Newly revised and updated, it shows ordinary believers how to share Christ in natural and effective way.

Starting Sunday, February 26, our church will embark on a 6-week journey toward becoming contagious followers of Christ. You will discover:

- your own natural faith-sharing style
- how to deepen your relationships and conversations
- how to be yourself while impacting others for Christ
- how to help your friends and family cross the line of faith

Sharing Christ with others can be one of the most exciting things you will ever do. Our church can help start a contagious outbreak of hope and enthusiasm for spreading the Good News of Jesus.

Be a part of the journey!
